

Product Notice # PRV-1059 PC/104 rev A1

Subject: EOL of Parvus PRV-1059 PC/104

End of Sale Announcement	Issued July 16, 2024
Last Time Buy Date	December 31, 2024
Last Time Ship Date	December 31, 2025

Dear valued customer,

This notification explains the lifecycle transition to customers currently using and requiring a continued supply of the PRV-1059 PC/104.

Curtiss-Wright is discontinuing the PRV-1059 due to difficulty sourcing components. Currently some components have been sourced from brokers to provide for a limited supply of the PRV-1059 PC/104 as part of Curtiss-Wright's commitment to support the lifecycle needs of our customers.

- PRV-1059 PC/104 rugged VLAN-capable 5-port (10BaseT or 100BaseTX) Fast Ethernet switch featuring very low power (2.2W) consumption based on the Marvell 88E6060. The unit is 3.550" x 3.775" (90x96 mm) in size.
 - Continued supply based on a first-come basis, while supplies last with an end-of-service/support date of one year from purchase date unless an extended service contract is in place.

Background

EOL status for this product is due to ability to source all materials.

Purchase orders should be placed using the normal channels. Products will have a one year guarantee from the purchase date. Curtiss-Wright may elect to decline a purchase order if sufficient parts cannot be sourced.

For More Information

For any questions related to this notice, please contact your Curtiss-Wright sales representative or Program Manager.

We urge customers with programs that are unable to migrate to submit an order for the remainder of their serial production and in-service support needs. Curtiss-Wright has made a significant investment into securing stock, but due to the value of the processor assembly, supply is extremely limited and forecast to be in high demand.
